EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a voice message left by Ms. Patricia Shatynski on 03-02-04.

The application has been amended as follows:

Claim 41: page 14, line 12, in the definition of 'm', after the word 'from', delete "0", and insert – 1 – in its place;

On the same page, lines 18-19, delete the newly added proviso of "**provided that when Y is ...other than a hydrogen;**"

Allowable Subject Matter

Applicant's amendment of 12-22-03 has overcome the previous rejections of 112/1st paragraph and 102 based on **Gronowitz et. al.** However, the added proviso has no support in the specification. Thus, the above examiner's amendment is necessary to overcome the teaching of **Gronowitz et. al.** The co-pending application 09/ 757,414 has been amended such that there is no overlapping subject matter. Thus, the rejection of double patenting has also been obviated.

Art Unit: 1624

With no outstanding rejection, claims 41-63 are allowed.

An update search yields references listed on PTO-892. However, said references either do not have the publication date or filing date prior to the effective filing date of this application, or they do not teach the side chain of $-Y-Z-CR^5R^6-CR^7R^8-CO_2R^9$.
